Connecting the Senses™

...for you when buying a home entertainment system Pudney Premium Gold® represents perfection in completing your audio and visual experience. Pudney Premium Gold® cables are able to deliver peak performance to your system through the use of gold plated connectors and plugs which provide the best possible connection. Oxygen free copper (OFC) gives Pudney Premium Gold® cables the highest clarity, with layers of copper braid, foam dielectric foil, shielding from radio frequency interference (RFI) and electro-magnetic interference (EMI). A TPR coating protects the core, delivering you a refined sound and signal to your home entertainment system. Your senses will truly be connected.
