

So Real Even Popcorn Jumps!

Pudney Premium Gold home entertainment cables represent perfection in completing your audio and visual experience.

The Premium Gold brand has created a revolutionary new cable that is specifically designed to provide brilliant picture quality from My Sky® and digital decoders (that have been upgraded) to your television.

Designed in New Zealand for the New Zealand market, the P925 cable series instantly provides more natural colour and crystal clear images far superior to standard cables that are

typically used. After all, quality home entertainment systems need quality audio and video cables to ensure ultimate signal transmission.

Being a responsible brand, Premium Gold cables contribute towards helping the environment using components and packaging that are recyclable.

Truly, connect your senses. The result is more shockingly realistic than some might think...just remember to hold onto your popcorn!

\$10 CASHBACK

Purchase a Premium Gold Cable from the P925 series and we will refund \$10 towards the total purchase cost!

Its easy, just send the barcode from the cable's packaging as well as your original purchase receipt with your name and address printed clearly on the back and send to: Pudney & Lee Ltd, PO Box 39-200 Wellington mail centre. Offer will be valid through till 31 Decemeber 2007.
